Nos. : 2,425,162; 2,610,119; 5,827,052; 6,004,116; 6,120,264; 6,332,760 B1; 6,457,192; 6,581,223; 6,679,686 B2; 6,722,306 B1; 6,754,925 B1; 6,754,926 B2; 6,763,540; 6,793,469; 6,990,700 B2; 7,020,921 B2; 7,040,347 B2; 7,114,207; 7,120,955; 7,152,265; 7,246,394; 7,306,694; 7,313,837; 7,334,274; 7,346,950 B2; 7,365,277; 7,387,920; 7,475,443; 7,497,416 B2; 7,597,123; 7,647,662; 7,739,760; 7,703,160; 7,739,763; 7,922,461 B2; 8,024,830 B2; 8,051,517; 8,151,390; 8,214,953; 8,549,686; 8,801,392; 8,863,771; 9,062,668 B2; 9,121,519 B2; 9,157,433; 9,211,018; RE42, 559 E; GB2378987; GB2396670; CN 221,800; ZL01129383
Others U.S. and International Patents Pending

Instructions for EZ[®] BED Set-up:

- Unzip storage case completely before inflation, make sure panel of storage case is laid flat on the floor, this will prevent damage to bed frame and ensure smooth extension out of its storage case.

- Do not sit anything on top or around bed during inflation cycle.
- Bed will expand to approximately 9ft. in length and 7ft. in width. (Clear space accordingly)
- Plug pump into a 240V AC outlet.

- Turn Comfort Adjust Dial to desired firmness level.
- Turn Inflate/Deflate Switch clockwise to "Inflate" position to turn on Pump and inflate air bed.
- Airbed-frame will automatically extend from its storage case.

- Pump will automatically turn off upon reaching selected firmness level and Inflate/Deflate Switch will automatically return to "Off" position.
- Unplug and store the cord in the "Cord Storage Pocket".

- EZ[®] BED is ready for use.
- You can change your comfort level by resetting the comfort dial. If you desire to change your comfort setting, turn Inflate/Deflate Switch to deflate to release some air. Repeat steps 3 and 4.

Instructions for EZ[®] BED Storage:

- Clear area, bedding and any other articles on top or around EZ[®] BED prior to deflation.
- Plug pump into a 240V AC outlet. For complete air removal, turn
- Inflate/Deflate Switch counter-clockwise to "Deflate" position.

- Upon completion, Pump will automatically turn off and Inflate/Deflate Switch will automatically return to "Off" position.
- Pump will exhaust remaining air in your EZ[®] BED.
- Place cord into Cord Storage Pocket for storage.

- Gently lift up Airbed frame by it's foot end and push it back into its storage case.

- Zip-up storage case for storage.

- Handle and wheels are located on the storage case for easy and convenient transport.

**Weight Limit: 450 LBS For Queen Size
300 LBS For Twin Size**
