

Spring Bed

Model No. KC024-137

WARNING:

- Adult assembly required.
- Keep screws and small parts out of the reach of children.
- Assemble on a flat level surface.
- To avoid injury to hands and fingers, use care when folding stretcher legs.

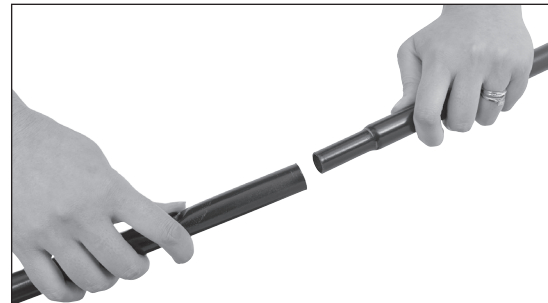

Step 1

Remove components from carry bag.

Step 2

Assemble two straight and one angled side pole set, ensuring that the angled section is at one end. Repeat.

Step 3

Insert one fully assembled side pole into the side sleeve. Repeat for the other side.

Step 4a

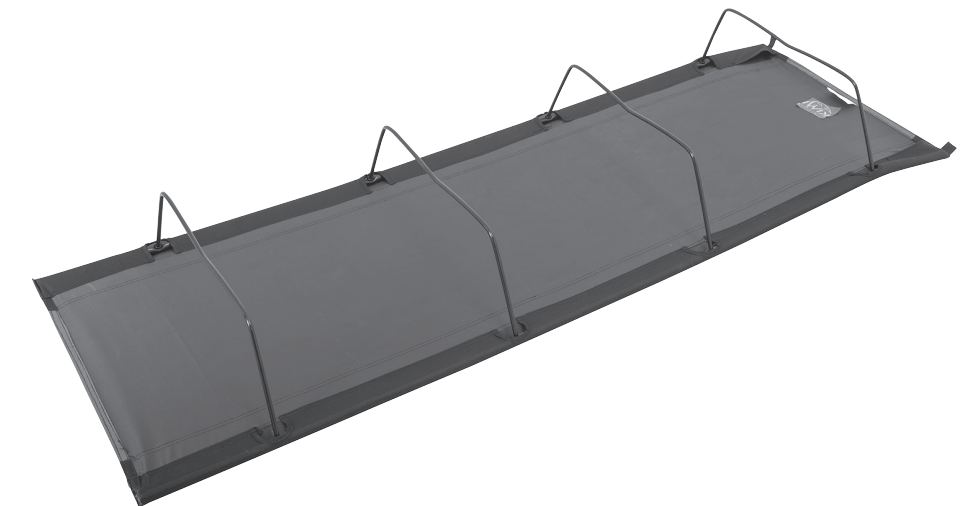

Hold the spring bed on its side, and insert one end of the spring-tensioned leg into the frame insertion point nearest the ground.

Using moderate force, push down on the opposite end of the leg. Use your free hand to steady and insert the leg into the unoccupied insertion point on the other side.

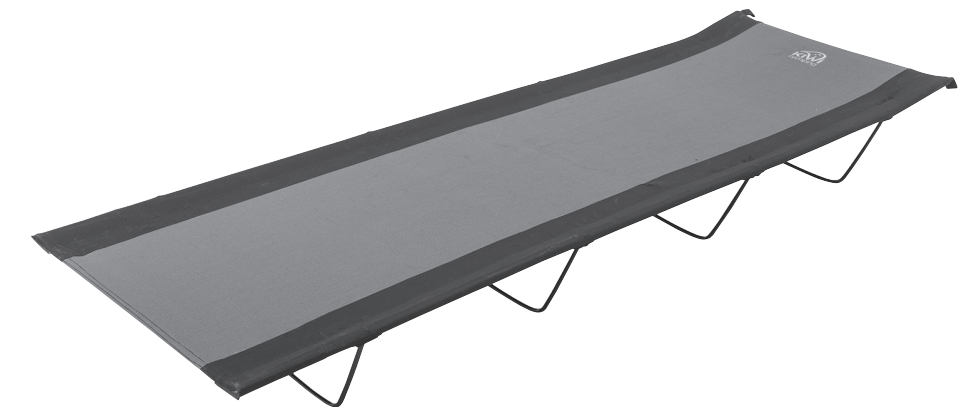

Step 4b

Repeat until all legs are engaged.

Step 5

Carefully place the camp bed in the upright position. Ensure the legs are fully engaged before using the camp bed.
